AWS EdStart Member

Hi Indra Ardiyanto ,

Welcome to ZettaByte !! You will find below the details to install your email address on your pc.

Email : indra.ardiyanto@zettacamp.pro
PW : d42`&w`2v115

Incoming Server: mail.zettacamp.pro
IMAP Port: 993
Outgoing Server: mail.zettacamp.pro
SMTP Port: 465

Please download the Thunderbird application on your laptop **in order to operate zetta email**.
This zetta email is ONLY used to do mailing during the ZettaCamp program.
As you log in, you will receive an invitation to register on Zettachat.

please do it quickly as you will use this email for:
1. **ZettaChat** - our internal chat application - click to get the link to ZettaChat
   You could use your credential above to login in zettachat. After you login into ZettaChat, please **upload** a profile picture where we see your face clearly.
2. **GitHub** - our code repository - this is where we store our code before it is pushed to servers.
   ONLY Front End / Back End need to create this account.
   Please make the GitID with the zettacamp email.
   Format: zettacamp-yourfirstname-yourlastname
3. **Google Account**
   Create your ZettaCamp email as a Google account. It will allow you to easily access the shared folders and documents. **Do not create gmail.**
   You will find here a little guide for this - CLICK HERE

Should you encounter some difficulties in any aspect, you could drop a message in the group WhatsApp: ZettaCamp Catfish or you could contact Laksmi directly, WhatsApp: +6287760049182. Please keep in mind that **we** are around to support you and answer your questions/doubts/fears about anything.

After you done creating the zetta accounts, please **acknowledge** and inform in email that you already:
● able to log in ZettaChat.
● already registered with GitHub (only developer) and inform your GitID with the correct format.
● Make your zettabyte email as a google account - so you will get access.

Your journey starts on Thursday, September 22nd, 2022 with the first agenda of onboarding with the clear objective to get an understanding about:
● ZettaCamp program and our core values
● ZettaByte as the company and the business perspectives
● Benefit of ZettaCamp
● The project you will join
● The stack we are on

Cheers!

Laksmi Dewi
